This matter came before the Chief Procurement Officer for Construction (CPOC) pursuant to a request from the Medical University of South Carolina (MUSC) to cancel award of a contract to Stenstrom & Associates, Inc., for modifications and additions to the Arco Lane Warehouse mechanical systems and systems controls. MUSC made the request pursuant to S.C. Code Ann. Regs. 19-445.2085(C)(1) on the grounds that ambiguous specifications were cited in the invitation for bids. [A copy of MUSC's request is attached as Exhibit "A"] After the CPOC started his administrative review of the matter, MUSC asked to withdraw its request to cancel the award. [A copy of MUSC's withdrawal is attached as Exhibit "B"]

#### **CPOC FINDINGS**

On September 8, 2008, MUSC advertised for bids to construct the Project, which consisted of modifications and additions to the existing mechanical systems and systems controls for the Arco Lane Warehouse (hereinafter, "the Project"). In the solicitation, MUSC sought construction bids on a base bid and an add alternate to the base bid work. [See Exhibit C for a copy of the Bid Form] However, on the bid form, the base bid is labeled Base Bid No. 1 and the add alternate is labeled Base Bid No. 2. This may have caused some initial confusion as to whether MUSC was soliciting multiple base bids or a single base bid with one add alternate. Whether or not there was in fact any confusion, MUSC subsequently attempted to convert the solicitation from one for a single base bid with one add alternate to one soliciting two separate base bids by issuing Addendum Number Four. [See Exhibit D] In this amended

<sup>&</sup>lt;sup>1</sup> The CPOC received a bid protest prior to MUSC's request to cancel the award that raised the same issue raised in MUSC's request to cancel award. After receipt of MUSC's request for cancellation, the CPOC scheduled a hearing on the protest and shortly thereafter, MUSC withdrew its request for cancellation believing the issue raised in its request would be addressed in the protest. The protest, however, did not raise all the issues addressed in this determination.

solicitation, MUSC intended "Base Bid No. 2" to include both the work in "Base Bid No. 1" and the work in the add alternate found in the original solicitation. The description of each base bid contained in the revised bid form included with the addendum indicated this intent. However, the description of the Project Scope that was also a part of this addendum refers to the second base bid as an "Add Alternate Bid". Moreover, the Project drawings still included work identified as "Add Alternate No. 1". As a result, rather than clarifying MUSC's intent, Addendum Number Four confused bidders as to MUSC's intent. On October 10, 2008, in an attempt to further clarify its intent, MUSC issued Addendum Number 5. [See Exhibit E] Addendum Number Five stated that 'Work identified on the Project drawings as "Add Alternate No. 1" is to be included on the Bid Form provided in Addendum No. 4 as "Base Bid No. 2.' This last attempt at clarification did not clear up the confusion among potential bidders regarding MUSC's intent.

By the time for bid opening, MUSC received five bids. [See Exhibit F] Christie, a South Carolina Registered Minority Business Enterprise, was the apparent low bidder on Base Bid No. 1 with a bid of \$38,991.00 as well as Base Bid No. 2 with a bid of \$60,894.93. H.R. Allen, Inc. was the apparent second low bidder on "Base Bid No. 2" with a bid of \$98,800.00, Stenstrom was the apparent third low bidder on "Base Bid No. 2" with a bid of \$124,500.00. [Copies of these three bids are attached as Exhibit G] After reviewing bids, MUSC decided it wanted to award a contract for Base Bid No. 2. However, both Christie and H.R. Allen interpreted the bid documents to require them to bid Base Bid No. 2 as if it were an add alternate to Base Bid No. 1 rather than a totally separate and independent bid. In other words, Christie's intended price for the work that MUSC intended to be included in Base Bid No. 2 was \$99,885.93, the sum of its two bid prices (\$38,991 + \$60,894.93 = \$99,885.93). After being made aware of their misunderstanding of MUSC's intent, both Christie and H.R. Allen object that they could not perform for the price they bid for Base Bid No.2 and withdrew their bids for mistake. [Copies of these letters are attached as Exhibit H]

On October 28, 2008, MUSC posted a Notice of Intent to Award a contract for "Base Bid No. 2" to Stenstrom for \$124,500.00. [A copy of the Notice is attached as Exhibit I] MUSC posted this Notice despite the fact that it did not make a written determination pursuant to S.C. Code Ann. Regs. 19-445.2085(A) that it was appropriate for either Christie or H.R. Allen to withdraw their bids for mistake.

<sup>&</sup>lt;sup>2</sup> Addendum Number Four included a new bid form. In this new bid form, the description of the item labeled Base Bid No. 2 reads as follows:

<sup>&</sup>quot;Provide modifications to the existing building mechanical systems as well as new systems to accommodate improved space temperature and humidity control. Provide new equipment piping and associated materials and controls to improve humidity control in the Library Storage Area."

During review of this matter, the CPOC noticed an additional and more significant defect in the award of this contract. The project is one primarily for mechanical construction and Stenstrom, though not a licensed mechanical contractor, submitted a bid as a sole prime contractor.

At the time of bidding, Stenstrom possessed a general contractor's license with a BD classification.<sup>3</sup> [See Exhibit J (See also, signature page of Stenstrom's bid in Ex. G)] The scope of the BD classification is set forth in SC Code Ann § 40-11-410(1), which provides as follows:

'(1) "General Contractors-Building" which includes commercial, industrial, institutional, modular, and all other types of building construction, including residential structures. This license classification includes all work under the subclassifications of Wood Frame Structures-Class II, Interior Renovation, Masonry, Pre-engineered Metal Buildings, General Roofing, and Structural Shapes.

Licensee under this classification may perform ancillary work, including grading, associated with the building or structure which the licensee has been engaged to construct. However, if a project includes work performed under a Mechanical Contractor subclassification ..., the licensee must have a license for this work or use a contractor licensed in the appropriate license classification or subclassification to perform the work." Emphasis added.

Because Stenstrom was not licensed to perform mechanical work, Stenstrom listed Knight on its bid as its subcontractor for the mechanical work. However, the Contractors Licensing Act places limitations on a general contractor's ability to bid the Project as a sole prime contractor with a mechanical contractor as a subcontractor. Title 40, Chapter 11, Section 340 of the South Carolina Code of Laws, as amended, provides as follows:

"An entity licensed under the classifications or subclassifications in Sections 40-11-410(1)... may act as a sole prime contractor on a project if forty percent or more of the work as measured by the total cost of construction falls under one or more of the licensee's license classification or subclassifications."

<sup>&</sup>lt;sup>3</sup> Stenstrom also held a construction manager's license but this license has no bearing on this matter. South Carolina Code Ann. § 40-11-20(5) defines a construction manager as an "entity working for a fee whose duties are to supervise and coordinate the work of design professionals and multiple prime contractors, while allowing the design professionals and contractors to control individual operations and the manner of design and construction." MUSC did not solicit construction management services for the project but construction services. Moreover, the Consolidated Procurement Code provides for specific steps that an Agency must follow to procure construction management services, none of which were followed in this case because MUSC was not soliciting construction management services. Finally, Stenstrom did not bid as a construction manager but as a contractor listing only its general contractor license on its bid. See signature page of Stenstrom's bid, Exhibit G.

The design-engineering firm for the project, MECA, Inc., estimated the work of the project to consist of 20% general construction, 28% electrical construction, and 52% mechanical construction. Since general construction is only 20% of the work, Stenstrom did not posses the proper license to bid the project as a sole prime contractor.

The Contractors Licensing Act requires a contractor to possess the proper license at the time of bidding. S.C. Code Ann. § 40-11-30. Moreover, S.C. Code Ann. § 11-40-200(B) precludes an owner from even considering the bid of an entity or individual that does not posses the proper license classifications or subclassifications at the time of bidding. Possession of the proper contractor license is an issue of responsibility. Protest of Burkwood Construction Company, Inc., Case No. 1997-8; Protest of Roofco, Inc., Case No. 2000-14(I). If, at the time of bidding, Stenstrom did not possess the proper license for performing the work of the Project, then MUSC was legally precluded from awarding Stenstrom a contract and should have declared Stenstrom to be a non-responsible bidder. Because less than 40% of any work provided for in the solicitation was within the limits of Stenstrom's license, Stenstrom was legally precluded from bidding the project as a prime contractor and MUSC was legally precluded from awarding a contract to Stenstrom.

## **DETERMINATION**

## **CANCELLATION OF AWARD PRIOR TO PERFORMANCE**

The S.C.Code Ann. § 11-35-1520(7) authorizes the cancellation of awards or contracts after award but before performance in accordance with regulations promulgated by the Board. Regulation 19-445.2085(C) allows the cancellation of an award prior to performance only upon written determination of the chief procurement officer that cancellation is warranted in accordance with the provisions set forth therein. One such provision is a determination that there was administrative error on the part of the purchasing agency in making the award and that such error was discovered prior to performance. See S.C. Code Ann. Regs. 19-445.2085(C)(7).

While the authority to cancel awards and solicitations should be exercised carefully and sparingly, cancellation is warranted where, as here, the award is a violation of the explicit language of the Contractors Licensing Act that prohibits the award of a contract. For the reasons set forth above, it was a violation of the Contractors Licensing Act and therefore administrative error for MUSC to offer a

<sup>&</sup>lt;sup>4</sup> Under S.C. Code Ann. § 40-11-340, only a mechanical contractor with the proper license subclassifications could bid this project as a sole prime contractor.

contract to Stenstrom for the Project. Moreover, this error was discovered before final execution of the contract by the State and before any performance by Stenstrom.

Additional grounds for cancellation pursuant to S.C. Code Ann. Regs. 19-445.2085(C) are:

- MUSC's administrative error in failing to make a written determination pursuant to S.C. Code Ann. Regs. 19-445.2085(A) concerning the appropriateness of Christie and H.R. Allen's bid withdrawal prior to making an award to Stenstrom; and
- 2. Ambiguous specifications cited in the specifications that created confusion concerning Base Bid No. 2 and the method for award.

For the foregoing reasons MUSC's Notice of Award to Stenstrom is hereby cancelled.

Dear Mr. White:

Pursuant to regulation 19-445.2085, paragraph C (1) of the South Carolina Consolidated Procurement Code & Regulations, the Medical University of South Carolina (MUSC) requests that you cancel the above referenced notice of intent to award based on ambiguous specifications cited in the invitation for bids. The wording concerning the two base bids led to confusion among the bidders. MUSC intends to clarify the wording and issue a new solicitation for the work.

# LISTING OF PROPOSED SUBCONTRACTORS

- 1. A Subcontractor is an entity who will perform work or render service to the prime contractor to or about the construction site. Material suppliers, manufacturers and fabricators are not Subcontractors and are not to be listed.
- 2. Bidder must list in its bid the name of only those Subcontractors that will perform the work so identified in the Invitation.
- 3. If Bidder determines to use its own employees to perform any portion of the work listed below, and if Bidder is qualified to perform such work under the terms of the Bidding Documents, Bidder must list itself in the appropriate place in its bid and not subcontract any of that work except with the approval of the Agency for good cause shown.
- 4. Bidder's failure to list a Subcontractor for each listed Specialty Subcontractor will render the BID non-responsive.
- 5. A Subcontractor listed for an Alternate Base Bid must be used for all work if the Alternate Base Bid is accepted.
- 6. Bidder hereby states its commitment to use the below-listed Subcontractors in the performance of the Subcontractor Specialty work listed:

Provide appropriate personnel, equipment, chemicals, and procedures to flush and treat the water system to remove debris and substances that could impair the performance of the heat transfer surfaces. Water samples shall be taken and analyzed by a chemical treatment company approved by the Engineer and witnessed by a representative from the Engineer's office. The system is to be certified as ready for use prior to any equipment being placed into service.
- K. Start, test, adjust, balance and place into operation all systems. The building water and air distribution systems are to be balanced to provide the quantity of air and water as shown on drawings. System balance is to be accompanied with certified test forms as to obtained air and water quantities.
- L. Provide a complete control system for the tie-in of the new mechanical equipment, including but not limited to air handling units and exhaust systems as well as modifications to the control systems and device relocation to accommodate changes in the operating sequence for the air handlers serving the Printing Area. All controls shall be compatible with the existing Trane Controls System in the facility. Contractor shall coordinate all control, interlock and starting circuit wiring. Re: Arco Lane Warehouse Xerox; Gen Equipment Addition State Project #H51-N159-PG

Mr. Mauney,

H.R. Allen, Inc. is in receipt of the Notice of Intent to award this project, and regrets to inform you that we must withdraw our bid.

Our interpretation of the contract documents were that there was two distinctive bid items labeled Bid Item #1 and Bid Item #2. This was supported by addendum number five which stated "work identified on the project drawings as "Add Alternate No.1" is to be included on the Bid Form provided in addendum number four as "Base Bid No. 2". We did not interpret this to mean that all work showed on the project drawings was to be included in Base Bid No.2, but in talking with Ryan Barber this morning, that seems to be the intent.

As a result, H.R. Allen, Inc. must withdraw their bid for this project.

Thank you,

Rod Allen President
